

ALFURQAN TRAINING INSTITUTE

New Intake

The institute took a new intake of 41 students making the total of 98 studying in the institution.

Alhamdulillah, Five students above 340 K.C.P.E. marks were awarded with full sponsorship. A number of New reverters were also sponsored.

University Affiliations/ Recognitions.

Through continued efforts over the past four years to affiliate and seek recognition from universities abroad, Alhamdulillah we are proud to be affiliated with the following well recognized international bodies; Madina University (Madina, Saudi Arabia), International University of Sudan (Sudan) and Dar-ul-loom Zakariyya (South Africa). Currently we have embarked on a process to be recognized by Malaysian Universities. We have eleven University graduate teachers in total educating our students.

Private inspections of the Institution were conducted by K.I.E. and Ministry of Education officials during the first semester this year. This exercise was carried out in order to maintain and raise the standards.

An independent Exam Board consisting of qualified Islamic Scholars countrywide was also formed to assess the examination papers and to uphold the Institutes level of teaching and learning.

Income generation/ Fund Raising projects at Maili Tisa centre

1. Bee hives Project: The Project continues to generate income though it faces new challenges such as the honey badger menace against which we are trying to cope up to the best of our ability.
2. Farm Project: The acreage has been expanded to include cash crops like Garlic. The Farm intends to self sustain the institution through out the year by harvesting Onions, Cabbages, Maize, Spinach and potatoes which are included in our students staple diet. Drip irrigation has also been introduced to reduce water usage.
3. Hostel Block: The hostel block at Park Road, Nairobi, has now been leased to Tiba Medical Centre.
4. Student Sponsorship Program: Well-wishers are encouraged to partner in sponsoring the students who are reverted and from poor and needy back grounds so that they can also become good citizens and contribute positively to the community.

Current & New Developments at Maili Tisa centre:

1. **Electric Water Pump:** Besides the solar water borehole supply, need arose for more provision as the population of both the local residents and students had increased. An Electric submersible pump was installed to meet the demand.
2. **Sinking of borehole in the Centre:** Even after installing the Electric pump mentioned above, the institution foresees the need of an independent water source which will empower it to self-regulate the utility and sustain the future intakes of students along with the Farm irrigation requirements. A donor towards this worthy cause has been identified.

3. As a way to integrate with the local community the following programs are placed:-

- a. **Mosque & Madrassa facilities.** Payment of mosque repairs and maintenance plus salary of Madrassa teacher.
- b. **Adult Education classes**
- c. **Computer classes** on full time basis as electricity supply is fully connected.
- d. **Borehole operations and Maintenance.**
- e. **Participating in local fundraising, social and economic programmes.**

4. **Library / Conference Hall:** Alhamdulillah, through collections from the previous charity walk and Qurbani/Udhiyya programme, the construction has commenced.

The total cost is estimated at Kshs.1.4 million. We had raised Kshs. 0.8 million from the above said collections, as such our shortfall is Kshs. 0.6 million. Donors and well wishers are encouraged to donate towards the construction.

5. **Health Clinic:** Plans are also ready. Funds are required.
6. **Mosque:** A new mosque has been planned for due to the increase in the populace of the students, teachers and locals.
7. **Teachers Quarters:** As most teachers leave outside the centre premises, need arises to provide them with
